Uses of different pH of water

Alkaline Water 8.5 - 9 - 9.5 pH

FOR HEALTHY BODY WE SHOULD START DRINKING ALKALINE WATER

**Drinking water should be
8.5 – 9 – 9.5 pH**

WHAT IS THE RIGHT pH OF DRINKING WATER?

- For initial consumption. We should drink 8.5 pH of Water for 4-7 days.
- We must have to drink 9 pH of water every day 3-to-4-liter.
- After waking up, after exercising and before going to bed, we have to drink 2-3 glass of water of 9.5 pH.

We Can Also Use 9 pH Water For Cooking
